

Fibernet's UNICONN allows your laptop full connectivity to the meeting room and charging both through a single USB-C cable

Easy, Fast, Efficient

Optimal user convenience - Connect your PC to a single Type-C cable that allows both full connectivity to the meeting room and simultaneous charging

An efficient plug & play solution that saves the need to install unnecessary cables and reduces the number of failure points in the meeting room

HDMI distancing option up to 100meters in 4K resolution

Option for connectivity of up to 2 PCs

BYOD Ease and Convenience

UNICONN ONE - Provides full PC connectivity and charging via a single USB Type-C port. Converts USB-C transmission to HDMI 4K@60Hz transmission. Allows full control over USB devices (IP camera, audio devices, microphone)

UNICONN EXTEND - Provides full PC connectivity and charging via a single USB Type-C port. Switches USB type C channel to a HDMI 4K@60Hz transmission over distances up to 40 meters or HDMI 4K@30Hz up to 70 meters over a CAT6a cable connecting TX and RX units. Allows full control over USB devices (IP camera, audio devices, microphone)

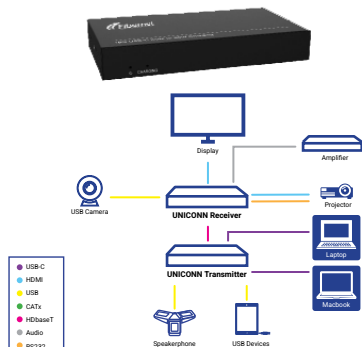

UNICONN EXTEND PRO - Provides full PC connectivity and charging via a single USB Type-C port. Switches USB type C channel to uncompressed HDBaseT 18 Gbps transmission up to 100 meters connecting TX and RX units. Allows full control over USB devices (IP camera, audio devices, microphone), Audio connections (speakers, amplifier) and RS232 ports (projector)

TYPICAL INSTALLATION LAYOUT

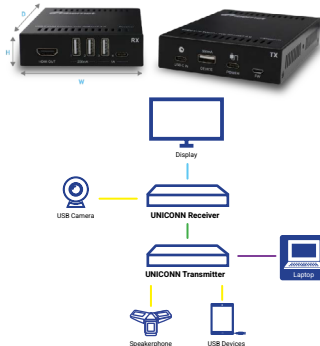

The following diagram illustrates typical input and output connection that can be utilized with

UNICONN ONE converter kit

	CONVERTER
Dimensions (W*H*D)	145mm x 80mm x 22mm
Net Weight	270g

UNICONN EXTEND switcher kit

	TRANSMITTER	RECEIVER
Dimensions (W*H*D)	90x24x140mm	90x24x120mm
Net Weight	285g	250g

UNICONN EXTEND PRO switcher kit

	TRANSMITTER	RECEIVER
Dimensions (W*H*D)	265x32x150mm	173x24.5x95mm
Net Weight	1020g	410g
